

*A message from WAGS, Wisconsin Academy for Graduate Service Dogs...*

# THANK YOU

Thanks to a generous donation from Gingras, Cates & Luebke, S.C. and Axley Brynson, LLP, WAGS will be able to double the number of volunteers to our program, each of whom will train dogs that help improve the quality of life for those with physical mobility impairments. If you are interested in bringing a puppy in your home and helping to raise, train and socialize it in preparation for service, please go to [www.wags.net](http://www.wags.net) or call 608-250-WAGS.

*This is why I train...*

“ I wanted to be a part of the program because I strongly believe in the power of animals **changing people's lives.** ”

*– Debbie W., WAGS Volunteer Trainer*
